Three Square Food Safety

Thank you for joining us in the pursuit of a hunger free community! Here at Three Square we strive to keep everyone safe and healthy and place a strong value on food safety. Please read and familiarize yourself with the below food safety tips before joining us for your volunteer activity. Thank you!

- As you probably already expect, no chewing gum, food or beverage at work stations while packing with us. Please finish and dispose of these items prior to hand washing. Water bottles are permitted in break areas.
- Please wash your hands before starting your activity. Handwashing tips: Wet hands in warm running water, apply soap and scrub for 20 seconds, rinse well in warm water and dry hands with a single use paper towel. Don't know where to find a hand wash sink? Just ask and we will direct you!
- Once hands are washed and dried fully please select a pair of single use gloves that are provided at your workstation. Change gloves between tasks or after touching anything not related to your task including: your face, hair, personal items such as your cell phone and of course the garbage.
- If you need to take a break please feel free to. Just let your team know you will be stepping away, remove your gloves, deposit them in the nearest garbage receptacle. Enjoy! Please consume any snack or meals in the designated break areas away from food packing. When returning, please wash your hands and grab a fresh pair of gloves before resuming your volunteer activity.

We are so glad you will be joining us soon!
